humantelligence®

THE CULTURE SOFTWARE

Medix.

*Humantelligence enabled Medix to increase their
hiring efficiency and reduce time to fill open positions*

Client

Medix is the leading provider of workforce solutions for clients and candidates across the Healthcare, Science and Information Technology industries.

Challenge

Medix handles the staffing of hundreds of positions concurrently. With a **tremendous volume of candidates** to evaluate, it was time -consuming and costly to find and place qualified talent for their clients. Previous assessment solutions they had been using had not been delivering sufficient results.

Example:
Filling 75 Contact Center Jobs

Before HT	After HT
750 Phone Screens	250 Phone Screens
375 Hours	125 Hours
$12,500	$4,200
Savings	$8,300 (67%)

Medix increased hiring efficiency by 100% using Humantelligence.

Approach

An efficient, cost- effective, and modern process that could consistently deliver quality candidates to their clients, faster than ever.

Results

- Prior to Humantelligence, recruiters would present an average of 8 candidates to fill each open position. With our help, they reduced that number to 4 candidates per placement – **dramatically increasing hiring efficiency**.

- **Reduced recruiter hours** required for screening candidates.

- **Higher quality** candidates sourced- with stronger alignment to team culture and dominant traits of high performers .
